

Building Kingdom

**God's Kingdom is a
BIG PLACE!**

There's a lot of room for a lot of people. It's vast and diverse and full of life. So many people don't know that it exists and we want to change that.

We rejoice to hear of churches being established throughout the world and of distant nations opening their doors to the gospel. We often see the building of God's kingdom as something that only takes place beyond the horizons, far away from our familiar places. In truth, kingdom building takes place more frequently and closer than we may think. Every day requires us to make decisions that honor God, or advance our own personal agenda. It's in our homes, at work and at play, where His commandments, desires and love, should be at the center of who we are and what we do.

“Serving the Lord is less about where we serve, but more about how we serve.”

–Jeff L. Cooper

Each member of the church has something to offer in building the kingdom of God. Serving the Lord is less about where we serve, but more about how we serve. Being actively engaged in the work of the kingdom, at any level, will bless our lives, move us out of our comfort zone and grow us into becoming more like Christ. Ultimately, we seek to grow in love and knowledge of Jesus Christ and make Him known to others; to make daily decisions that are designed to advance God's kingdom and that have eternal impact.

As a church, we believe kingdom building starts in our own hearts as we cultivate the spirit of God in our lives. We build it within our families by instilling faith in our children. We build the kingdom in our personal lives and at work by being an example. We build it in our community by seeking to meet the needs of others. And we build it through the church as we develop our callings and share the gospel with others.

We are also convinced that it is through the planting of churches that God's Kingdom can truly flourish. Community Builders Church is committed to being a church planting ministry that prepares and sends leaders to plant churches in strategic cities. This plan is devised around a three-year development program designed to equip 12 core leaders (i.e. Pastors, Elders, Ministers, Directors) to be sent out as key members of a church planting or church revitalization launch team. The leaders will serve as either a lead pastor, or as a key member of a launch team. The goal is to equip, send and multiply leaders who are prepared to replicate this process of discipling people and developing leaders. We desire to effectively reach people in our community and the world by creating thriving gospel communities of disciples who develop disciples.

Your support means more people will be introduced into a saving relationship with Jesus Christ and become disciples of Christ, to serve and to build God's kingdom, now!
